The I-710 Corridor Project EIR/EIS will study 18 miles of the I-710 Freeway between the Ports of Long Beachn and Los Angeles and the Pomona Freeway. The corridor area encompasses 15 cities including the City of Maywood. This phase, expected to be completed in 2011 will explore possible improvements to the I-710 corridor, along with the impact of these changes to the enviroment and surrounding communities. During the Major Corridior Study, intensive public outreach found that improving air quality and reducing public health risks, improve mobility and assess alternative goods movement technoligies were the three key objectives that emerged for the I-710 Cooridor Project EIR/EIS.
