RECYCLING REPORT

The California Legislature has passed legislation, known as the California Beverage Container Recycling and Litter Act of 1986, as part of the State Public Resources Code Article 14501, which requires all local jurisdictions to exercise certain controls over recycling facilities. The state has further enacted legislation pursuant to the Public Resource Code Section 41780 that requires local jurisdictions to report to the State Consolidated Waste Management Board the amount of refuse generated, collected, recycled and disposed of in landfills from recycling site to which the material is disposed. The City has adopted Ordinance No. 96-432 as a means of implementing the various State requirements. As part of this, the following monthly report is required to be filed with the City, by the recycling vendors operating within the City. Said report must show the type of materials being collected, the amount of each material being collected, and the recycling facility to which the materials are delivered.

This form is intended to assist the recycling operators that conduct such business within the City to report the necessary information to the City each calendar month of the year.
